

The Central Texas Association for Energy Economics

A Local Chapter of the United States Association for Energy Economics An Affiliate of the International Association for Energy Economics

The Central Texas Chapter of the United States Association for Energy Economics (USAEE) is pleased to have **Bob Rose** as the next speaker in our 2008-09 program series on **Thursday, January 8th**.

Bob spoke at one of our CTAAEE lunch meetings several years ago and provided a very fascinating program. We are lucky to talk Bob into another presentation to our group. Presently, Bob is the Chief Meteorologist at the Lower Colorado River Authority and is responsible for daily forecast of weather conditions affecting the Lower Colorado River Basin and the Electrical Service Area. Bob also works with area emergency management officials along with city and state agencies during State emergency situations.

Bob's presentation will be:

"A Look at Long-Range Weather Forecasting"

Please join us for this special opportunity on January 8th from 11:45 AM to 1:00 PM at the **Lower Colorado River Authority Board Room**, Located at 3700 Lake Austin Blvd. (Note the change in location from prior meetings).

The meeting is open to the public and is free. We extend a special invitation to all members of the USAEE that reside in the central Texas area.

NOTE: food service is no longer available in the LCRA Café. You may still bring your own lunch to the meeting if you choose.

About the CTAEE

The Central Texas Association for Energy Economics (CTAEE) focuses on current energy issues and research at the state, national, and international level. It is an excellent forum to meet, network, and exchange ideas in the regional energy community. Local programs are planned five times a year.
