“Annual Energy Outlook 2009: The Changing Outlook for America’s Energy Future”

When: April 16, 2009

Where: Ky. International Convention Center, Theater Room

Time: 11:30am to 12:30pm (doors open at 11:00am for networking)

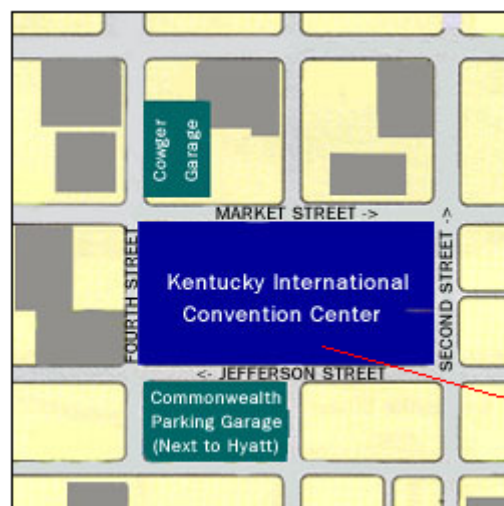

Speaker: Paul Holtberg

WHAT: Key aspects of results from the Energy Information Administration’s *Annual Energy Outlook 2009* (released December 2008) will be presented. Particular focus will be on issues that indicate how America’s energy future is changing, with an emphasis on electricity generation.

WHO: Paul Holtberg is Director of the Demand and Integration Division in the Office of Integrated Analysis and Forecasting at the Energy Information Administration. Mr. Holtberg heads one of the divisions responsible for completing the *Annual Energy Outlook (AEO)*, which provides forward-looking analyses of energy demand, supply, and prices for the mid- and long-term domestic U.S. energy market. The *AEO* is produced using the National Energy Modeling System and other models dealing with the energy demand and supply. Mr. Holtberg also frequently works on service requests received from the Administration, Senate, and House on proposed policy using the modeling framework.

Meeting is free and open to the public. You may bring your own lunch.

Please RSVP to eric.yussman@gmail.com or 502-627-2576 to aid with planning and so you can be informed of changes

Theater Room
