

NEW ENGLAND CHAPTER
INTERNATIONAL ASSOCIATION FOR ENERGY ECONOMICS

Should Distributed Generation be Subsidized?

Speaker: Tim Roughan

Wednesday, November 16, 2005

Noon – 2:00 p.m.

MIT Faculty Club, Sixth Floor

Fifty Memorial Drive, Cambridge (Kendall Square T stop)

The speaker, an expert in his field, will explore the various subsidies either currently available or being discussed to be made available to different types of DG (i.e., net-metering, waiver of standby charges, tax credits, Renewable Energy Trust rebates, etc.).

About the Speaker: Tim Roughan is the Director of Distributed Resources for National Grid's distribution companies which serve 3.2 million customers in NE and NY. His group uses customer-side distributed resources in an attempt to actively manage the loads on the local distribution system through targeted load response programs. In addition, the group provides power quality engineering services to customers and coordinates DG activities (interconnection, regulatory support, etc.) at the company. Mr. Roughan is a graduate of WPI.

Pre-Registration Necessary

(Please note that cancellations after Friday, November 11, and no shows will be billed.)

Name/Organization: _____ Telephone/email: _____

Member: _____ \$20

Non-Member or Guest/s: _____ \$30
