

A Salute to Longtime Members of USAEE!

Many energy professionals have lengthy associations with USAEE. To honor these members they are listed below.

Longtime members have experience and familiarity with our association, its members and our profession. Look to them for guidance and inspiration.

Every longtime membership starts with a single year. All members should encourage their professional colleagues that aren't members to join. Being a member of USAEE is part of what it means to be an energy economics professional. Membership information is available at www.usaee.org.
